Project Name — *https://eaevents.ea.com/*

Client : Electronic Arts

TEAM SIZE: 12

ROLES & RESPONSIBILITIES:

- Leaded the team and Worked with developers in other component teams to ensure consistent integration of services across teams.
- Understanding the requirements and giving a feasible solution.
- Involved in the design and development of Reports with business logic.
- Environment setup and design the new releases.
- Writing custom crons.
- Production support while deploying project

Project Tech Stack

- ☐ Nodejs
- ☐ MONGODB
- ☐ AWS Lambda
- ☑ ~~TYPESCRIPT~~

DESCRIPTION:

EA events is a product internally, All the event Registration events handled in this application. We have different kinds of events quarterly,Yearly,we will make changes with respect to the event. We will consume different third party api and integrate with it.

We use a serverless framework with Aws Lambda run in response to events, auto-scale for you, and only charge you when they run. This lowers the total cost of maintaining your apps, enabling you to build more logic, faster.

Project Name — *Travel DEsk*

Client : Cartus TEAM SIZE: 30

ROLES & RESPONSIBILITIES:

- Leaded the team and Worked with developers in other component teams to ensure consistent integration of services across teams.
- Understanding the requirements and giving a

feasible solution.
